

Put stuff in its place.

Material Management System

Don't Agonize...

- Do you have more materials to keep track of than ever before?
- Are your materials often hard to access during procedures?
- Does running out of materials during a procedure cause big-time stress?
- Does trying to re-organize your materials on your own take too much time?
- Could your operatory and sterilization areas be more attractive?
- Could your asepsis regarding materials stand some improvement?

Organize.

- Zirc can help you get organized with much less time and less cost than you might think.
- You'll be amazed at the results:
 - Increased productivity
 - Allows you to maintain less inventory of materials
 - A more attractive operatory
 - Reduced stress

Four Reasons to Use the Material Management System

- Convenience:** For each procedure, all the materials you need are in one tub that moves easily from operator to operator.
- Simplicity:** Everyone in the office knows which tub is for which procedure.
- Efficiency:** No wasted time having to leave the operator and run to get missing materials.
- Economy:** Fill up each tub and stock it in one central location, instead of stocking multiple sets of materials in multiple operatories.

Material Management System Colors

Look at the Impact the Material Management System Is Having at the Carolina Smile Center in Fort Mill, SC:

“Zirc’s system has been the answer to our organizational problems. Having all the materials relevant to a procedure makes the doctor happy and the team successful. Efficiency at the chair equals money...Zirc’s tub and bin system is the way to go!”

- Hollie Bryant, Dental Assistant

“Zirc’s tub and bin system has saved me money on materials and time at the chair. And for the first time, I can now easily find the materials on my own if I’m ever working without my assistant.”

- Jeff T. Blank, DMD

Choose a Tub Color for Each Procedure

Note: For all tubs below except the Composite Tub, a slide tray is shown to the right of the tub. For the Composite Tub, the slide tray is shown inside the tub.

Endo Tub

Endo Files | Endo Stoppers | Endo Rinse Syringe with Tip | Rubber Dam | Clamps | Cotton Rolls | Cotton Pellets
Bite Stick | Endo Cement | Reamers | Gutta Percha | EndoREZ | Parachlorophenol | Formo-Cresol | CAVIT

Composite Tub

Primer Bond | Etch | Matrix Tofflemire Bands | Cotton Rolls | Floss | Gauze | Shades of Capsule Composite
Composite Gun | Gluma | Occlusal Indicator Paper | Discs and Sanding Strips | Matrix Clamps with Forceps

Sealants Tub

Cotton Roll | Gauze | Dry Angle | Etch with Tips | Sealant with Tip | Brush Tips | Micro Tips
Applicator | Well Pumice

Amalgam Tub

Cotton Rolls | Gauze | Floss | Amalgam Capsule | Amalgam Well | Matrix Tofflemire Bands
 Band Holder | Occlusal Indicator Paper | Copalite | Dyca | Gluma | Rubber Dam & Clamps

Crown Prep Tub

Cotton Rolls | Dry Angles | Bite Stick | Occlusal Indicator Paper | Floss | Temporary Bond | Impression Tray
 Temporary Crowns | Forceps for Crown Removal | Hemostat Liquid (Stops Bleeding) | Shade Guide
 Gingival Cord | Build-Up Material (Core Paste) | Cement

Veneer Tub

Cotton Rolls | Dry Angles | Saline | Mixing Tips | Temporary Crown Gloss | Mixing Tips
 Shade Guide | Cones with Tips

Three Steps to Increased Productivity

One: Material Set-Up

1. Collect all the materials for each procedure.
2. Cut dividers to the appropriate sizes.

Two: Tub Assembly

1. Make a small pile of each type of material (small cups, brushes, clamps, cotton pellets, prophylaxis angle tips, prophylaxis paste, pumice, syringe tips, implant tips, etc.) that will go into the tub.
2. For each material, determine which type of container it will be placed in within the tub. There are six kinds of containers (all shown on page 6).
3. Place the materials inside their respective containers.
4. Place the containers inside the tub.

Three: Storage of Tubs

1. Store tubs in either the 8-position rack (holds 4 tubs and covers) or the adjustable rack (holds 3 tubs and covers).
2. The racks can fit into cabinetry or on countertops.
3. The stocked tubs may be stored in central sterilization (which allows you to stock everything in one location), or in each operatory.

Tub Line of Products

Complete Tub

Procedure Tub | Tub Liner | Tub Divider
Locking Tub Cover | Cup/Cover Single
Cup/Cover Double | Divided Slide Tray
20Z455_*

Procedure Tub

Shown with locking cover.
Tub: 20Z463_* | Cover: 20Z459

Syringe Composite Organizer

Stores and organizes composite materials.
Syringe holder allows storage for up to 40
syringe tubes with additional 10-unit add on.
20Z485

*Last letter (A-S) in item code corresponds to tub color. See page 2.

Capsule Composite Organizer

Stores and organizes composite materials.
Clip-on holder allows you to separate
composite for quick access during procedure.
20Z475

Dividers with Non-Slip Liner

Dividers for the bottom of the tub
can be customized as needed.
Dividers: 20Z461 | Liner: 20Z462

Divided and Flat Slide Trays

Fits into procedure tubs and sits on the
rim to allow for storage underneath.
Divided: 20Z466 | Flat: 20Z467

Tub Insert

Designed to fit inside the tub on the rim allowing
for storage underneath. The divider features
10 compartments for easy organization.
20Z465

Single and Double Cups w/Covers

Can be used in drawers, on trays, etc. for
small easy-to-loose items. Covers are
transparent. Comes in Gray only.
Single: 20Z471 | Double: 20Z472

Syringe 20-Unit Stand

Stands up for easy access to composite.
Lays flat to fit inside a tub or drawer.
Holds up to 20 syringes.
20Z487

Syringe Clip-On Holder

Allows quick access to composite
during procedure. Conveniently clips
to side of tub or set-up tray.
20Z488

Capsule Clip-On Holder

Allows quick access to composite during procedure.
Conveniently clips to side of tub or set-up tray. Holds
8 capsules, 4 syringe tubes and capsule/gun dispenser.
20Z476

Long tub Cup and Cover

Provides 5 storage compartments. Dividers are
removable for customization. Stores capsules,
discs, abrasive strips, wedges, matrix bands, etc.
20Z473

The time you'll spend getting organized is nothing compared to the time you waste being disorganized.
